Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

The prior art of record does not disclose a connector assembly with a first member having a nozzle; an anchor rotatably mounted and having at least one tab extending therefrom; a second member having at least one aperture and at least one flexible wing, wherein the tab releasably engages the aperture and a portion of the wing is movable towards the aperture contacting the tab.

The Examiner recognizes that references cannot be arbitrarily combined and that there must be some reason why one skilled in the art would be motivated to make a proposed combination of primary and secondary references.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
